JAYCEE TOURNAMENT WINNERS—Winners of the Jaycee Junior Golf Tournament are shown above with their trophies. First row: John Poe and Gary Smith. Second row: Jimmy Shivers, Randy Brown, Mark Smith and Van Newberry. Behind the winners is Billy Joe Wilson, tournament chairman. Newberry won fourth in the regional tourney held last weekend in Sweetwater.

## Jake Roberts to Speak at Old Glory Road Dedication

Final plans are taking shape for the dedication and ribbon-cutting ceremonies of the new Farm-to-Market Road between Old Glory and Hamlin. The program will start at 11:30 on Thursday, June 30, and will be held at the new bridge spanning the Double Mountain Fork of the Brazos River.

Jake Roberts, District Highway Engineer of Abilene, will be the main speaker. It was previously announced that Hal Woodard, State Highway Commissioner, would speak, but due to a conflict in dates, he will be unable to attend. H. G. Andrews, Jones County Judge, will introduce Roberts.

The citizens in the Old Glory & Sagerton area have been sent invitations to the dedication and barbecue dinner sponsored by the retail trade committee of the Hamlin Board of Community Development. A good response to the invitation is being received by the BCD office.

Hamlin citizens who are interested in attending the program may purchase tickets at

### JAYCEE TENNIS TOURNAMENT STARTS FRIDAY

The Hamlin Jaycee Tennis Tournament will get underway at 8:30 a.m. Friday when boys and girls doubles and singles are scheduled for 11-18 age group.

Men's and women's open, singles and doubles, are set for 5 p.m. Friday.

Twelve trophies will be given in the two meets which will be held at Hamlin High School Tennis Courts.

Run-offs will be played on Saturday.

## Hearing Set for Road Bond Vote

The County Commissioners Court set July 11 as the date for a hearing on the bond election for the purchase of right of ways. The \$200,000 bond election would be used to purchase right for sections of U.S. Highways 277 and 380 leading out of Stamford.

Four Stamford men appeared before the court, presenting the petition which bore 96 signatures, nearly twice as many as was required.

After the hearing at which time the property owners involved will have an opportunity to vote and voice an opinion, the court will set the date for election, at least 30 days after the July 11 meeting.

### FIRST BAPTIST LOYALTY DINNER WELL ATTENDED WEDNESDAY

The First Baptist Church of Hamlin held a Loyalty Dinner Wednesday evening at 7:30 in the Hamlin High School Gymnasium.

The purpose of the dinner was to inform the congregation and their friends who were present of the Stewardship program of the church.

Children parties were held at the church during the dinner. Approximately 450 adults and children were present at both events.

Speakers were Tate May, J. V. Howard Jr., Bill Shira, L. J. Cunningham, M. D. Carlton, E. A. Hewett, Joe Ford and Henry Albritton.

The invocation was given by Jimmy Vaughn. Rev. Lenard Hartley, pastor, made announcements.

Ken Prewitt and Larry Upshaw also made talks.

Arrangements for the dinner were made by a committee headed by Mrs. Bill Shira.

Mrs. Tate May assisted by Mrs. L. E. Prewitt, Mrs. Charlotte Abbott, Rebecca Ferguson, Darlene Josey, Elizabeth Cunningham and about thirty others

in the Central West Texas area is located about 12 miles northeast of Hamlin. The structure was built 110 feet above the water at the main span and 50 feet long at a cost of more than \$160,000.

The road, with the bridge which crosses the Brazos, will give the people of Old Glory a much shorter route to Hamlin. The road is paved from Hamlin north, beginning just past the Oil Mill and extends 18 miles to Old Glory.

Fields plowed were those of Mel Jones, whose crop was planted by some of the same men and George Wainscott, who is in the Stamford Sanitarium, recovering from major surgery.

Men driving tractors were: Raleigh Bond, Flavel Holmes, Elmer Joiner, Woodrow Goodwin, W. C. Eoff, Ed Rodgers, Bo Perry, Wayne Hodnett, Eli Bruner, Melvin Dowell, J. E. Johnson, Bill Kelly, Aron Watson, Vernon Ely, Connie Drake, Robert Rhoton, G. W. Drummonds, Woodrow Bagley, Joe Ford, J. C. Riddle, Kenneth Riddle, Earl Abernathy, Jack Gray, Fred Teichelman, Fred Rosenbaum, Winston Gray, Roy Smith and Little Oscar Jenkins was used to direct them where to go.

All makes of tractors were used and Mr. Jenkins reported all of them did a fine job. Among the happiest of the crowd, was Jimmy Wainscott, 12 year old son of Mr. and Mrs. George Wainscott, as he expressed, "he just didn't know if he could plow the little cotton and maize or not, but with daddy out of the hospital and able to sit on the ends and show him, he could handle it from now on."

Continuing with the program which began June 1, lay speakers will present talks for the Sunday School assemblies on Sunday morning. They are: Joe Ford, Walter Willis, Ira Clements, Mrs. W. G. Ferguson, Mrs. Tate May and Mrs. L. A. Hartley.

Noel Weaver will speak during the Sunday morning Worship services.

### A. B. Carltons Visit Daughter In California

Mr. and Mrs. A. B. Carlton have returned from a two week trip to California where they visited their daughter and her family, Dr. and Mrs. William J. Adams and sons, Bill Jr. and Anthony, in San Diego.

Dr. Adams is associated with the speech department at San Diego State College.

While in California they visited San Luis Rey Missions and the mountain town of Julian.

On their return home they visited Mrs. Carlton's brother, Noel Oates, in Midland.

Improvements sought on U.S. 277 are widening it to four lanes from Stamford to Anson.

Widening U.S. 380 south-eastward from Stamford also is included in the plans.

Jake Roberts, Abilene district engineer for the State Highway Department, explained the petition is apparently an outgrowth of a meeting between Jones County Officials and the highway department in which the department agreed to improve the roadways if the county would pay for half of the right of way needed.

All of the property involved is in road district No. 1.

All of the road district's funds were exhausted in purchasing right of way for highway 92 between Hamlin and Stamford.

Eight voting precincts of the county are involved, including two in Hamlin, two in Stamford and one each in Lueders, Avoca, Tuxedo and Ericksdale.

**Burglar Caught Robbing Elevator Safe**

June 18, 1920

Following a tip that the safe at Hamlin Mill & Elevator building would be blown open, Marshal Will Johnson and W. E. Hunter, manager, waited behind the door until 2 a.m., when the burglar appeared, and stopped his efforts. The men removed all cash and left the safe open. Waiting behind the door, the men heard the safe click before firing into the dark; at the intruder. After eight shots were fired the burglar held up his hands in surrender. He was jailed in Anson following a night in the City jail.

Today this San Jacinto Battleground, just east of Houston, is a beautiful sight to behold.

Remember reading about the Texas Revolution and the final battle where General Sam Houston and his valiant Texas Army, thundering "Remember the Alamo," defeated the Mexican Army of Santa Anna?

Texas has more private roads than any other state in the union. Today there are 1,591 miles of superb divided concrete highways.

The total will reach 2,700 by 1975.

Truly, there's more to see in Texas—and you can't see it better.

Stone houses over 500 years old in Texas?

Yep, in our Texas Panhandle.

Nope, they don't build 'em like they used to any more.

These were built by the Peublo Indians and were discovered in 1907. You can see them today just 18 miles southeast of Perryton.

Why was it there?

You guessed it. Crystal City is the spinach capital of the world.

How will a gun last?

That is one of the questions frequently asked around a hunting camp or a sporting goods store.

The answer is about the same as you'd get if you ask "how far is down?" Gun collectors all over the country have some wonderful specimens of fowling pieces that are a couple hundred years old. Many of these guns are in excellent condition.

So, it might well be said that the life of a gun depends almost entirely on how well the gun is cared for.

Recently we asked L. A. Wilke of the Texas Game and Fish Commission how long he thought a gun would last. He has been hunting ever since he was a youngster in grade school, and he knows his firearms.

Here's what Wilke had to say:

"The other day, in Raymondville, we saw a collection of Model-73 Winchesters that had been gathered up by Game Warden Bill Gooch. Most of the guns were in excellent shape. Gooch also had several old single action Colts that were equally as well preserved.

"Although the majority of the guns had not been shot for a long time, they had been frequently wiped and stored under glass.

"Keeping a gun in good condition and in constant use is important. Unfortunately most of us are too careless about them after we get through with a shoot. Care is absolutely essential.

"We have an old Ithaca double 12 gauge that has been in use for more than 50 years. For the first seven years this gun was used only once. During the past 45 years it has been shot considerably every season.

"There isn't much that this old Ithaca hasn't killed. It has shot rabbits, squirrels, doves, quail, ducks, geese, bobcats, coyotes and one buck deer. It has been used in hunting from the Great Lakes to the Gulf of Mexico.

"First shells ever fired in it were some Robin Hoods, with black powder. They haven't been made for nearly a half-century. Then came smokeless powder. Then more than 35 years ago we got high velocity loads and shot them by the case at ducks and geese on the Texas Coast. Then the limit on ducks was 25 per day.

About 15 years ago while on a duck hunt on the Red River we broke the right sear. A Gainesville gunsmith patched it up and we used it several more seasons. Then it got the bad habit of firing both barrels when the trigger of either

was pulled.

"We thought we'd put it out to pasture, then decided to send it back to the Ithaca factory.

They advised that parts for this particular gun hadn't been made for years, but one of the boys there who had been working for the factory for many, many years, had a few replacement in his tool box. The mechanism of the gun was restored like new. We've given it some heavy hunting since. The blue is worn off in a few places, but generally you would not think the gun was over five or six years old.

"This just goes to show that a gun will last if you take care of it."

In summary then, let's just say that a gun will last indefinitely—if you'll handle it with care, while in use, store it properly, then clean and oil it occasionally.

Too many gun owners think that all one has to do to store a gun is to clean and oil it good, place it in a tight fitting gun case, and stand it in the corner of a dark closet.

That is sufficient attention for a short period of storage. But it is not adequate if you are going to have it stored from one hunting season to another.

A gun needs plenty of oil and plenty of grease, but it also needs plenty of air.

Some hunters, in storing their firearms, wrap them in a soft rag—such as an old bed sheet—after oiling it with a liberal coat of grease.

The bed sheet method serves to keep the gun salved with grease, and prevents the grease from soiling the inside of the gun case. It works fine for a short period of storage.

Our experience has been that it is wise to leave the gun case open wide to allow plenty of air to circulate, so there can be no sweating.

It is very important that no moisture, not even one small particle, be allowed to form on any metal parts of the firearm.

It is moisture that causes the gun to rust. Therefore anything you can do to keep moisture away also will keep the rust away. And rust is the greatest enemy that metal faces.

Damp hands and damp air can do much harm to the metal parts of gun, if the moisture is allowed to remain there for long.

So, don't just keep your powder dry, keep your gun dry, too. Then it will last the lifetime of many a man, passing from one generation of hunters to another, for all to enjoy.

For those of you who are fortunate to have a wooden gun

chest, make it a habit of applying a light oil to the gun occasionally and give it a frequent wiping, to prevent moisture from accumulating.

Remember that a gun case is designed primarily to protect the gun while it is in transportation. But a gun chest is preferable for effective storage.

For the life of your gun keep in mind that very few guns wear out, most "rust out" from improper care and attention.

## FARMERS GAS TAX FORMS AVAILABLE

A supply of instruction sheets and form 2240 Claim for refund of federal tax on gasoline used on a farm, have been received in the county agent's office according to an announcement made this week by County Agent, Kirby Clayton.

The claim for refund may be filed by the owner, tenant or operator of a farm and only gasoline used for farming purposes during the period July 1, 1959 to June 30, 1960 may be included. Gasoline purchased before October 1, 1959 was taxed at 3 cents per gallon and the refund on this fuel will be at the rate of 3 cents per gallon. After September 30, 1959 the federal tax on gasoline was increased to 4¢ per gallon and the refund may be claimed on this gasoline accordingly.

If you have filed this claim for refund in previous years, you will be sent the Form 2240 directly from the office of Internal Revenue. Those who have not filed claim for refund before or who have not farmed in the past will want to secure a copy of the Form 2240 to file this year.

Deadline date for filing for tax refund is September 30, 1960. For your Form 2240 or further information, contact the county agent's office.

## WANTED BY THE FBI

JOSEPH CORBETT, JR.

Corbett, one of the FBI's "Ten Most Wanted Fugitives," is wanted for escape from the California Institution for Men, Chino, Calif., where he was serving a 5 years' to life sentence for murdering an Air Force sergeant. A Federal warrant was issued at Los Angeles, Calif., on March 21, 1960, charging him with unlawful interstate flight to avoid confinement for murder.

A white American, born on October 25, 1928, at Seattle, Wash., Corbett is 6 feet 1 inch to 6 feet 2 inches tall and weighs 160 to 170 pounds. He has light brown hair, hazel eyes, a fair complexion, a medium build, and has worked as a clerk-typist, laborer, warehouseman, laboratory technician, and alkyl-resin cooker for a paint manufacturer. His two upper front teeth slant inward and he wears glasses, reportedly being extremely nearsighted and capable of seeing only close objects without them. He has a mole under his chin and a C-shaped scar on his right thumb.

Corbett, once a premedical student, is interested in scientific matters, avidly reads technical and travel books, and is intensely interested in firearms and target practice. He reportedly has a superior general intelligence and generally lives quietly and neatly but becomes erratic when drinking alcoholic beverages.

Convicted of second-degree murder, he is considered armed and dangerous.

Anyone having information concerning him should immediately notify the nearest office of the FBI, the telephone number of which can be found on the first page of local telephone directories.

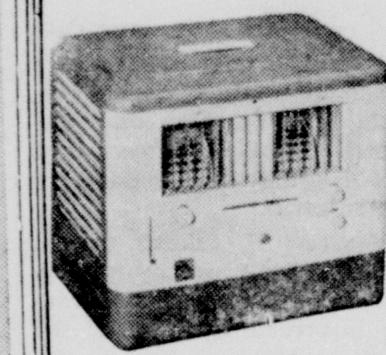

Alaska has an area of 586,400 square miles.

## WIDOWS AND CHILDREN OF DECEASED VETS ELIGIBLE FOR NEW PENSION LAW JULY 1

AUSTIN—Several thousand widows and children of deceased veterans of World War II and the Korean Conflict will become eligible to receive pension benefits on July 1. These dependents will be entitled to these benefits as the result of a new pension law enacted by Congress last year, according to Charles L. Morris, Executive Director of the Veteran's Affairs Commission in Austin.

Prior to passage of the new law, known as the Veteran Pension Act of 1959, dependents of deceased World War II and Korea Conflict Veterans were entitled to pension only if they had a disability that resulted from active military service. The new law provides benefits to the dependents of deceased veterans of World War II and the Korean Conflict if the dependents meet certain limitations with regard to income

and size of their estate.

Morris said that a very small percentage of the widows and children who could benefit from this new law have applied to the Veteran's Administration for the benefits to which they are entitled. Morris pointed out that the children of deceased World War II and Korean veterans are eligible to receive pension, even though their mother may have remarried since the death of her veteran husband, and even though the children may have been adopted by the mother's new husband. These children are eligible to receive pension while they are unmarried and under the age of eighteen years. They may continue to receive pension until age twenty one if they remain un-married and are attending an approved school, and may receive pension indefinitely if they became physically or mentally incapable of self-support before their eighteenth birthday.

Unremarried widows and the custodians of dependent children may receive further information and assistance in obtaining these benefits by contacting any office of the Veterans Affairs Commission or any Veterans County Service Officer or from any office of the Veterans Administra-

tion.

Now Is Time to Freeze Vegetables

Now is the time of year when women are beginning to freeze vegetables says Mary Y. Newberry, Jones County Home Demonstration Agent was given for food leaders in her office Wednesday morning. Seventeen women attended.

She discussed the place of quick breads in the diet. Quick breads are so named to distinguish them from the yeast breads which require a longer time to prepare and bake.

Breads and cereals provide at least one third of the daily caloric intake and one third of the protein in the diet, the agent informed the leaders. Also bread is a source of protein and food energy and contains important amounts of vitamins and minerals.

The agent prepared puff ball coffee cake and a nut bread made from a homemade master mix, which is cheaper than most of the commercial mixes. She also discussed other quick breads that might be made from the master mix which will save time and energy.

The leaders who attended the meeting and will give the demonstration in their own club were: Mrs. Dennis Butler, Mrs. Doc Galloway, Mrs. W. J. Spurquin, Mrs. Ed Lynn, Mrs. E. L. Russell, Mrs. E. O. Young, Mrs. Carl Young, Mrs. Noble Greer, Mrs. Bob Parksdale, Mrs. C. E. Carlton, Mrs. J. C. Kainer, Mrs. Jack Fugua, Mrs. Warren Hilliard, Mrs. Mack Doty, Mrs. W. E. West and Mrs. Kenneth Vancil.

After blanching, plunge basket of heated beans into a large container of ice water or into running cold water. It takes about as long to cool vegetables as to heat them. When they are cool, remove from water and drain. Pack the beans into moisture vapor proof container. Leave 1/2 inch headspace. Label container with name of vegetable, locker num-

Watch this column next month

## ONE MINUTE OF COURTESY

It's been my experience that most folks in Hamlin try to answer their calls promptly. But in the summer time so many are busy outside — with gardening yard work or just relaxing in the sun or under the stars — that it takes a little longer to get to the phone.

If you've ever just missed a call after running in from outside to answer the phone, you know how disappointing it is. Most folks can get to their telephones within a minute, even when they aren't in the house. One minute is about the time it takes for the phone to ring 10 times.

By waiting at least 10 times before you hang up, you have a much better chance of getting your call through, especially when the person you're calling is not near the phone. In the long run, you'll save yourself the time and trouble of calling again, and your friends will certainly appreciate your courtesy and patience. So please remember to wait 10 rings — it takes just a minute.

## VACATION TRAVEL TIPS

If you plan to go out of town on vacation, there are a couple of things you can do to make your trip more enjoyable and carefree.

First, call ahead for reservations. Second, make arrangements with a relative or neighbor to keep an eye on the house while you're away. Give them your vacation address and phone number so they can reach you in an emergency.

Remember, too, Long Distance rates are lower on Sundays and weekdays after 6 p. m. And you save more than one-third when you call station-to-station.

Call by number. It's twice as fast.

tified by letter from the president. All phases of this program will get underway within the next six months.

Other business coming before the Board included a report from C. L. Howard chairman of the Trade Development Committee on the progress being made for the barbecue and ribbon cutting ceremonies of the Hamlin and Old Glory Farm-to-Market Road.

The Board also approved plans to send the Manager to the Institute for organization management at the University of Colorado in July. Roland is a graduate of the Institute and will do graduate work in Boulder which is conducted each year under the sponsorship of the United States Chamber of Commerce.

He also looked at the problem area and pointed these to mention a few, such as the ever growing problem to attract more young people back home, the need to adjust and provide more traffic control, parking facilities, educational and school needs, health and welfare service, housing, street paving, and down-town beautification.

Newberry pointed out the need for the organization to adjust itself to handling these problems efficiently and well organized. He said that this committee must be agreeable to give of their time and ability in studying the needs of the committee in light of the organization's ability to serve those needs and formulate a program of which the organization has the ability and willingness to bring to successful conclusions. By so doing, he named five key citizens in whom he placed much faith and confidence in working on this greatly needed program.

Heading the committee on economic affairs is George Campbell; civic affairs B. M. Brundage; public and mem-

## 11 STUDENTS TO ATTEND SUMMER BAND

Eleven students from Hamlin have already been accepted for McMurry College's annual summer band and twirling school on the campus at Abilene on July 10-23.

Dr. Raymond T. Bynum, director of the school and head of McMurry's band program, said he expected an enrollment of 400 or more for the two-week school.

Instruction is offered to junior high sch. and col. students in individual instruments, band work, marching and twirling.

Fifteen instructors, plus several assistants, will make-up the faculty for this summer's school. They represent 10 Tex-

as cities and are veteran musicians, directing high school or junior high bands in Odessa,

Abilene, Snyder, Brownfield, Dallas, Winters, Colorado City White Deer, Midland and Rosedale, Texas.

Out-of-town students are housed in the McMurry dormitories, and a recreational program is provided, in addition to several concerts.

Accepted from Hamlin are Betty Jane Roberson, clarinet; Lou Ann Hawkins, drum; Ann Hymer, Dotty Albritton, drum; Judy Lee Cheshier, clarinet; Judy Fitzgerald, drum; Sue Johnson, flute; Caron Knabel, flute; Gloria Jenkins, flute; Ann Johnson, flute; and Freddie Shave, alto sax.

The Misses Roberson, Hymer, Albritton, Fitzgerald, Sue Johnson, Jenkins and Ann Johnson will receive twirling instruction.

Mr. and Mrs. W. C. Watts and twin sons, Sammy and Danny, of Big Spring visited with Mr. and Mrs. I. D. Acklin and family.

### Local Girls Giving Twirling Lessons This Summer

Janice Richardson and Jorene Hudspeth are giving instructions in baton twirling for girls six years old and older during the summer.

The girls, who have both taken lessons from several qualified instructors and have three years of experience as majorettes, are teaching on Tuesdays and Fridays at 606 N. W. Avenue G. in the home of Jorene's parents, Mr. and Mrs. Joe Hud-

pet.

Both girls, who will be sen-

iors this fall have been in competition with other twirlers in this area, Janice winning three first place medals and Jorene placing second.

# Why Mercury is the better low- price car

!

**MORE VALUE.** Just look at these Mercury advantages over other low-price cars:

You ride smoother because Mercury has up to 8 inches more wheelbase . . . and is up to 494 pounds heavier. You're more comfortable because of Mercury's extra shoulder room, leg room, and foot room. You feel safer because Mercury's brakes are bigger (up to 26%), and visibility is better (up to 21% more). Mercury has at least two dozen extra values. Why not enjoy them all, and save a little money, too?

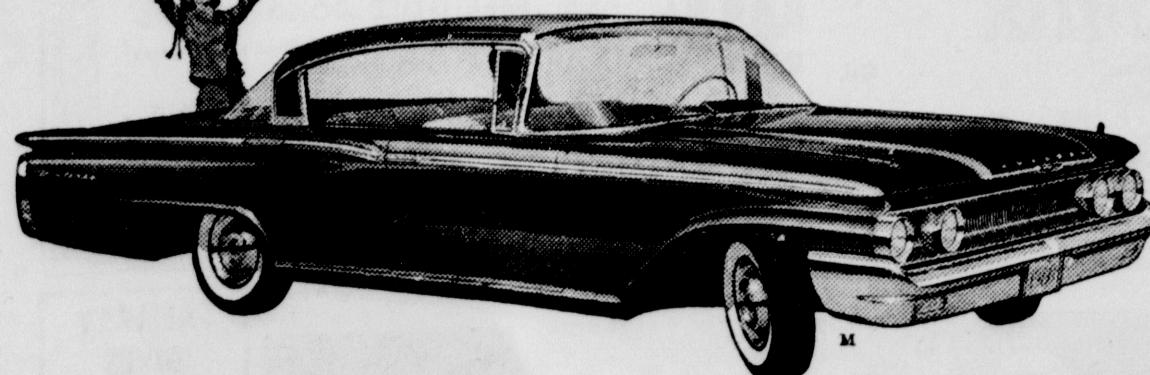

**PRICES START \$63 TO \$66\* BELOW EVEN THE LOWEST-PRICED V-8 POWERED PLYMOUTH FURY OR CHEVROLET IMPALA.**

And we're not talking about a 'stripped' Mercury. This price comparison is based on a de luxe-appointed Monterey with luxurious nylon interior and deep, soft wall-to-wall carpeting.

This amazing price story is the result of Mercury's dramatic 1960 price reductions (as much as \$174 lower than last year, including extras that are now standard equipment).

Every Mercury is lower priced than last year. All Montereys are now low-price cars. They are priced below, or within a few dollars of, the other de luxe V-8 series in the low-price field. Come in. See for yourself.

\*Based on comparison of manufacturers' suggested 1960 retail base prices for lowest-priced V-8 models.

SAFELY  
ALL-WAYS**

70 killed!—More than 8,000 injured! You didn't read of this disaster in your local paper. It wasn't there. These killed and injured were working men and women all across the nation who were accident victims on their jobs yesterday. Today they are statistics!

The toll goes on—every hour, every day and at year's end some 16,000 workers have been killed and more than 2,000,000 injured. Time lost by disabling injuries would equal the working time of a million men for a whole year. For the dead there is no time.

About 3 out of every 4 occupational accident victims are workers in smaller plants, firms and businesses. In fact, in every job there is some hazard. Slipping on a floor, tripping on a stair or falling from a truck can incapacitate you as surely as some situation which would seem more dangerous. Know your job—know the hazards connected with it—and be prepared to avoid them.

Think before you act—before you expose yourself to danger and accident. Think safely. It's better to be a worker than a statistic!

**Electric Kitchen**

**Symbol of Modern Living**

The touch-of-a-button magic of an electric kitchen brings the whole world of tomorrow to today's homemaker. The modern electric food preparation center is a decorator-designed dream of beauty, comfort and convenience. Here's why...

**CLEAN . . . . .** In your electric kitchen everything stays sparkling clean. Walls, ceilings, curtains, pots and pans testify to the fact that your electric range gives efficient, controlled heat without the dingy by-products of flame-type cooking.

**COOL . . . . .** Electric heat is transmitted directly to the pots and pans, and not out into the room. Your kitchen stays cool and comfortable...and so do you!

**CONVENIENT . . . . .** Push a button or twirl a dial for automatic, carefree cooking, clothes washing and drying, dish cleaning and garbage disposing. It's as simple as that!

**ECONOMICAL . . . . .** Costs less than 3¢ to cook an average meal electrically in this area. And, a penny's worth of electricity does an equally big job in washing and drying your clothes, preserving your food, perking your coffee, toasting your bread, or disposing of your garbage.

**SAFE . . . . .** Enjoy odorless, flameless security in your electric kitchen. Breezes can't blow out this heat. And, you can safeguard youngsters by throwing away the matches forever!

**SURE . . . . .** In your electric kitchen you know the heat will remain constant; you know it will be the same tomorrow and the next day; you know it is the proper temperature for each dish you prepare; you know all this because you know you can depend on electricity!

## 'THE BOY AND THE PIRATES' NOW SHOWING AT FERGUSON

"The Boy and the Pirates," now showing through Friday at the Ferguson Theatre through United Artists release is frankly and unabashedly—in fact, frondently—an escape film. An imaginative venture into the realm of adventure-fantasy, it is designed to appeal to anyone who is fed up with guided missiles, income taxes and international tensions of mid-twentieth Century civilization, and would appreciate a restful hour-and-a-half amid the colorful and romantic violence and intrigue of the Eighteenth Century.

Susan Gordon is the 10 year old daughter of the producer-director of "The Boy and the Pirates," but nepotism was not involved in her choice for her role in the film. Fresh from a critical triumph as Danny Kaye's daughter in "The Five Pennies," Susan is one of the hottest kid properties in Hollywood.

## 'The Adventures of Huckleberry Finn' Showing Sunday

Mark Twain's "The Adventures of Huckleberry Finn," one of the great classics of all time, has been brought to the screen by Metro-Goldwyn-Mayer, with all the excitement, humor and atmospheric color of Twain's famous story of the rousing adventures of an all-American boy and a runaway slave on the Mississippi River.

The classic starts Sunday at the Ferguson.

Seen as Huck is 13-year-old Eddie Hodges, who scored in the Broadway musical, "The Music Man," and followed with a hit on the screen in "A Hole in the Head."
